

Figure 1

Figure 1 shows two maps of the study area. The left map displays the location of the study area within the state of Georgia, highlighting the counties of Wilcox and Ware. The right map provides a detailed view of the study area, showing the locations of the four sampling sites (A, B, C, and D) relative to the town of Waynesboro. The maps also indicate the proximity of the Savannah River and the Ogeechee River.
